

Where Football meets Education

Get to know and get involved in our non-profit organization: Academia FC México. It is Mexico's first and only football academy that offers young football talents the combination of some of Mexico's best educational as well as athletic development.

Children of poorer families, with less educated parents, and those living in rural areas are often forced to **drop out of school at an early age** to help earning some money. Most Mexican children, who grow up in the "wrong" social class hardly ever get to know life on the other side.

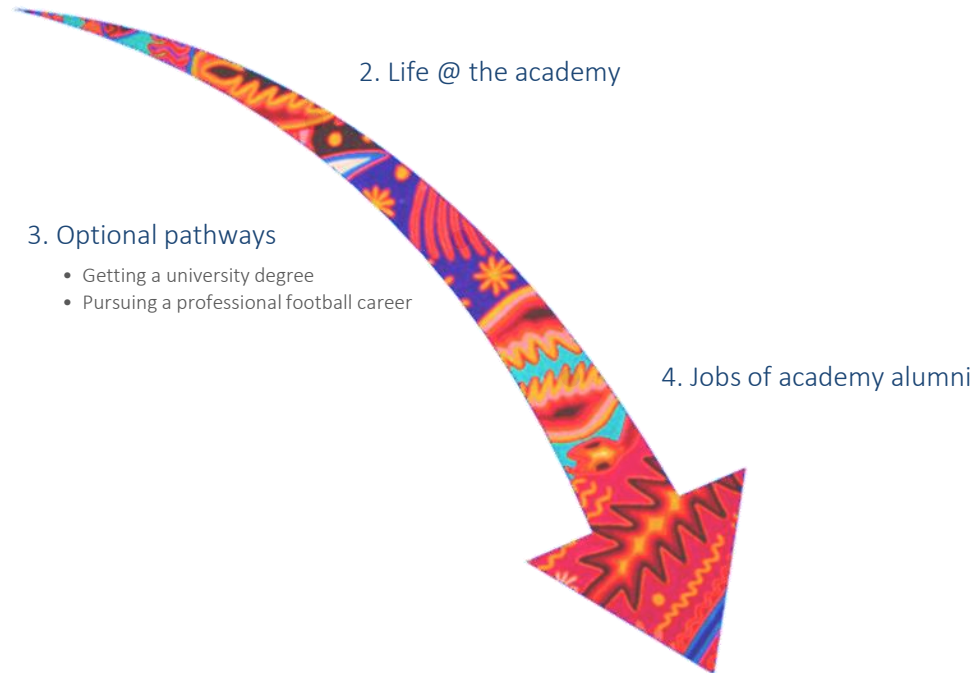

Football is Mexico's #1 sport. However, due to corruption, the **low support** from the Mexican Football Association, and relatively **high fees** that clubs charge, Mexico's amateur and **professional football** seem to be **reserved to the economic elite**, while **85% of Mexico's talent pool is lost** somewhere along the way.

Youth is every society's future – that's where we want to make a difference

Apart from giving unprivileged boys and girls the opportunity to graduate from one of Mexico's leading high schools while becoming football professionals, we want our students to become societal role models.

1. Program invitation

2. Life @ the academy

3. Optional pathways

- Getting a university degree
- Pursuing a professional football career

4. Jobs of academy alumni

5. After-academy commitment

1. Program invitation

In collaboration with other charities or UN organisations we will identify and invite the most needy as well as the most talented adolescents.

2. Life @ the academy

Our students will live, learn, and grow at the academy – personally as well as professionally – until they graduate from high school.

3. Optional pathways

We encourage and support our students to obtain a scholarship for university and / or pursue a professional football career.

4. Jobs of academy alumni

Having graduated from one of Mexico's top high-schools our alumni will be perfectly prepared to obtain an above-average-paying job.

5. After-academy commitment

We morally oblige these new societal leaders to spread their obtained values and ethical principles, share their success with their families, and invest a percentage of their future income in their home communities.

- share our academy's values and philosophy,
- themselves live up to high ethical standards.

What we offer in return

Apart from personal satisfaction by helping others, we offer our partners the following and more:
